

# BMT SERIES

# NEXT GENERATION

## Next Generation

The new BMT is without a doubt innovative and adapted to the new industry standards. Built with the highest steel quality combined with finest engineering knowledge. Bibeau's BMT series is built to fulfill your toughest needs.

### STANDARD SIZES

Body lengths :	13'0" to 21'6"
Side heights :	36" to 60"
Door heights :	42" to 66"
Hoist bracket :	5.5" to 7.5" (Front trunion mount)
Capacity :	8 to 30 cubic yards
approx. weight :	4645 lbs* (based on 15'0 x 48" x 60")

### TECHNICAL INFORMATION

Construction	Material	BMT450-P (with side posts)	BMT450-S
Sides :	AR450	3/16"	3/16"
Front :	AR450	3/16"	3/16"
Floor :	AR450	1/4"	1/4"
Door :	AR450	1/4"	1/4"
Longsills :		1/4"	1/4"

# BFL SERIES

# NEXT GENERATION

## Next Generation

The new BFL takes versatility to yet another level. Its innovative design combined to the toughest steel the industry has to offer, put the BFL series in an unparalleled category of light weight combined to ruggedness.

Interior header top plate, dirt shedding AR450.

Dog house 12" deep.

The two piece formed top rail providing long lasting strength\*

The single panel tailgate design, provides a high impact resistance factor while maintaining a higher flex capability.

The smooth sides (no post and/or horizontal bends) have a greater capability to flex. They can absorb more energy before showing nasty dents.

Wider rub rails extending width to 99" O.D.

\*BFL-S Illustrated with options Illustrated as reference only

Wider rear posts.

### STANDARD SIZES

Body lengths :	13'0" to 21'6"
Side heights :	36" to 60"
Door heights :	42" to 66"
Hoist bracket :	5.5" to 7.5" (Front trunion mount)
Capacity :	8 to 30 cubic yards
approx. weight :	3930 lbs (based on 15'0 x 48" x 60")

### TECHNICAL INFORMATION

Construction	Material	BFL-P (with side posts)	BFL-S
Sides :	AR500	1/8"	5/32"
Front :	AR500	1/8"	1/8"
Floor :	AR450	3/16"	3/16"
Door :	AR450	3/16"	3/16"
Longsills :	AR250	3/16"	3/16"
